Plat Acceptance By Group Brings Council Comment

Tempers were strained a bit Tuesday as city council considered a variety of minor business items. Sam F. Keener, head of the Salem Engineering Co., has offered to donate a 221-acre farm, located immediately south of the Leffingwell road off the Ellsworth road, for the site of the airport. A dispute between council and John A. Rose, and Anna F. Hephner. Keener appeared personally before council Tuesday and outlined

To Men of the High School

HERE'S a big day coming soon - the day when you get your diploma. At your graduation exercises you'll hear two things mentioned often - the opportunities and the obligations of manhood. Those aren't just words. They deserve the serious thinking of every high school graduate.

As an American citizen your opportunities are greater than in any other country on earth. And for that very reason you have an obligation to defend America and its freedoms - to make this way of life secure.

By enlisting in the Army or Air Force after graduation you will be discharging your debt to your country. At the same time you can take advantage of one of the finest opportunities ever offered a young man.

CHOOSE YOUR FIELD OF SPECIAL TRAINING BEFORE YOU ENLIST!

If you are 18 to 34 (17 with parents' consent) and a high school graduate, you can select your course of training in the Army or the Air Force before enlisting.

Under the Army Technical School Plan you can specify two different courses that appeal to you in each of two fields. The Army will check to make sure there is an opening in one of the four courses you have selected, and a place will be reserved for you in that course. Then you enlist for 3, 4 or 5 years, and after passing the physical and mental examinations and completing basic training you will be guaranteed training in your chosen field.

The Air Force offers a similar opportunity in its Aviation Career Plan, giving you a pre-enlistment choice of 3 among the more than 40 USAF Specialist Schools. There is no better way to get a start in the great and growing field of aviation.

Either plan gives you good pay, excellent training and a splendid chance for advancement in a real career. You can get full information, including lists of available Specialist Schools and Technical Courses, at your nearest Army and Air Force Recruiting Station.

kind of motor-car beauty never before

People everywhere are attracted by

Hudson's low, streamlined silhouette and

Only Hudson, because of its exclusive recessed floor that you step down onto, is able to offer streamlined, low-built

beauty without asking you to give up

Let's take a frank look at the motor-

car designer's problem. Since streamlin-ing an automobile reduces available head room for rear-seat passengers, to achieve a low silhouette and maintain adequate head room, both floor and seats must be

lowered to compensate for the lowered roof. The recessed floor is a necessity.

But it is difficult to lower floors and seats, because in all cars, except Hudson, they are built on top of a frame. Only

New Russian Aproach Is Held "Encouraging" By U.S. Officials

ier Stalin's latest statement on peace "is encouraging" but the issues proposed for settlement do not stand between the United States and the Soviet union alone.

Moreover, the department said in this government's first official comment on Stalin's broadcast statement, the issues listed have been
under negotiation for two years or
more in the United Nations, the
Council of Foreign Ministers and elsewhere. Other countries always have been deeply interested.

For example, it said the Soviet Union and the Soviet Ukraine have blocked agreement on control of atomic energy although the other nine members of the U. N. atomic commission were agreed. It added "a similar situation exists with regard to other issues mentioned in Premier Stalin's statement."

The department's statement came after a busy morning of conferences among top officials and presuably including White House opinion on

Russia Recognizes New State of Israel

MOSCOW, May 19—Russia be-came the second major world power today to extend official recognition

to the new Hebrew state of Israel.
The United States announced recognition of Israel last week, only minutes after the new state came into existence. Guatemala followed the United States.

Russian Foreign Minister V. M. Molotov sent a note last night to Moshe Shertok, former minister of Israel's provisional government, say-

"The government of the U.S.S. R. has decided to recognize officially the state of Israel and its provisional government.
